Expense Tracker app wireframe

*This is a rough idea that how my app.

*Home page of my application will somewhat look like this.

The wireframe shows the home screen of the ExpenseTracker app. At the top is the title 'ExpenseTracker' in a bold, black, serif font. Below it is a text input field with the placeholder 'Enter Expense or Amount'. Under the input field are two blue buttons: 'Add Expense' and 'Add Amount'. Below these buttons, the text 'Total Balance' is followed by '\$ 1200' in green. At the bottom is a blue button labeled 'View Transactions'.

*Transaction page of my application will be displayed as

Transactions

Manage all your previous transactions..

Grocery	02-02-2024	-\$150
Rent	02-03-2024	-\$1250
Salary	02-03-2024	+\$2500
Insurance	02-04-2024	-\$550
